The Drum Network

THE DRUM NETWORK

The Drum Network is an organisation that aims to make agencies more successful - by giving them the tools to build profile, and the knowledge to build profit.

The world of marketing services is nothing if not competitive. Breaking through is nothing if not challenging. At the last count there were over 30,000 agencies in the UK market alone - each vying for the attention of potential clients, suitors and media outlets.

On one level The Drum Network helps get its members on the radar, by giving them access to The Drum's channels; which include the UK's largest marketing website and the PPA Business Magazine of the Year.

But on another it plugs them into our vast range of contacts, helping to facilitate peer-to-peer development and the honing of the key skills that are vital to winning in this fast moving industry.
